

Subject: Important Update Regarding Your Breek LOK 3QD Purchase

Dear Valued Customer,

We hope this message finds you well. We're writing to inform you about an important update regarding a manufacturing batch of 100 Breek-LOK 3QD Hubs (BRK4300). These Hubs were manufactured and shipped after February 1st, 2025.

It has come to our attention that the product you received is likely a part of this batch and, while not unsafe to use, may not be fully compatible with all associated muzzle devices as initially intended. We sincerely apologize for any inconvenience this may cause and want to ensure you receive a fully functioning replacement if you so choose.

To request a replacement, please contact our sales team at phil@breekarms.com. He will guide you through the necessary steps to exchange your current Breek-LOK 3QD Hub for one that meets all compatibility requirements. As a gesture of goodwill, we'd also like to offer you a Breek Arms hat or T-shirt free of charge.

Thank you for your understanding and support as we work to resolve this matter promptly.

Warm regards,
The Breek Arms Team
