

Dear Valued Customer,

Holosun Technologies, in cooperation with the U.S. Consumer Product Safety Commission (CPSC), is recalling the HS503G-ACSS Red Dot Sight and HE512C-GD Gold Dot Sight manufactured or imported after 12 February 2023.

The recalled firearm sights pose an ingestion hazard because the CR2032 lithium coin battery can be easily accessed and does not bear the required warnings. In addition, the battery provided in the retail package is not in child-resistant packaging as required by Reese's Law. When button cell or coin batteries are swallowed, they can cause serious injuries, internal chemical burns, and death, posing an ingestion hazard to children.

This recall involves the Model HS503G-ACSS) and Model HE512C-GD. These sights are black in color and labeled with the Holosun logo and model name on the packaging sleeve, box, manual, and product. Each package includes a dot sight, a CR2032 lithium coin battery, and the instruction manual.

Consumers should immediately stop using the recalled firearm dot sights and place them out of reach of children. Contact Holosun Technologies for instructions on receiving a free recall kit, which includes a battery compartment enclosure with required labeling and an updated instruction manual for HS503G-ACSS models. For HE512C-GD models, Holosun Technologies will provide free return shipping to install a compliant battery compartment tray, along with a compliant instruction manual and new packaging.

If you have any questions about this notice or how to identify the affected products, please contact Holosun Technologies toll-free at 888-869-1180 from 8:30 a.m. to 5 p.m. PT, Monday through Friday, email at cpscinquiries@holosun.com, or visit <https://holosun.com/media/news-events-171.html> or www.holosun.com and click "Recall" at the top of the page for more information.

To begin the process to get your HS503G-ACSS or HE512C-GD compliant with Reese's Law, please complete our form found [here](#).
